

2016-2017 Annual Report

Oregon ODN is a non-profit member association with over 90 professionals from a variety of industries, who are interested in improving organizations at a systems level. Our financial health this past year has remained steady. ODN Oregon exists to advance the practice of Organization Development and careers of its members and the profession.

Our core values of Learn-Connect-Serve aligned our activities for the year. We began traditionally with a program, networking and think tank. Kit Cody and Sarah Lechner of the Carrigio Group elevated our understanding of agile to a new height. October saw us networking with gamification as our focus, remember networking bingo? November, we were back-to-school with our Facilitator's Playground, tools and techniques were traded like lunches! December, we appreciated our members with an elegant holiday party hosted at West Café.

2017 began a true journey, OD Focus, where in each session we navigated the process of OD (entry to termination) utilizing the NTL OD Roadmap. We send out a heartfelt thank you to PSU's CEPE for hosting us!

Center for Executive
and Professional Education
PORTLAND STATE UNIVERSITY

In May, we were delighted to host Nina Narelle of XPlane for our first ever Visual Thinking School, just for OD practitioners! Who knew we could draw toast? June was our spring party wrapping up the year and appreciating our members.

NOT ALIGNED

ALIGNED

Let's not forget the Community Consulting Projects (CCP) that run during fall and spring. CCP is an outreach program that brings together teams of professionals to provide free OD consultation to our Portland area, non-profit organizations. This program seeks to advance the OD profession and increase community awareness of the value of OD. Thank you to all of our consultants for donating your time and expertise!

How can you get involved? Please join us at events, as a CCP consultant or volunteer on the Board.
